24

4. Race

Cauc

5. Sex

Male

6. Length

5'11"

7. Weight

250+

8. Eyes

Brown

9. Hair

Brown

10. Beard

Yes

11. Blood (Type; Alcohol Content)

A+, 0.2 AC

12. Rigor Mortis (Location; Degree)

On Set, Slight.

13. Livor Mortis (Location; Color)

Lower Abdomen.

14. Non-Fatal Wounds; Distinguishing Features (Scars, Tattoos, Other Features)

Tattoos on upper shoulder.

15. PATHOLOGICAL DESCRIPTION AND DIAGNOSIS

Corpse looks to have been attacked by a wild animal of some sort, Animal hair is present on the body, teeth and claw marks are present. Left Arm is missing from corpse. Unknown location. The heart of the victim is missing, it looks to have been savagely removed. Hair analysis on the animal hair is being conducted and we should know what type of animal did this. So far from the look of the hair is comes from a canine. But the bite marks are not consistent with any breed of canine that size.

16. PROBABLE CAUSE OF DEATH

Mass Bleed out, Severe Lacerations to chest, face.

17. Name of Pathologist

Alfred Hancock

18. All facts in this report are true and correct to the best of my knowledge and belief.
